

Style Tips from Gorman Heritage Farm!

Here are a few fashion “do’s & don’ts” from the GHF style consultants. Remember these few simple fashion rules, and you’ll enjoy your stay at the Farm a whole lot more!

- **Be Comfortable ... Be Sensible!**

- The Farm is not the place to show off your latest fashion find ... come dressed casually, comfortably, and ready for action!

- **Feet First!**

- Leave the heels and thin-soled sandals at home, and wear something sturdy and comfortable. There is a lot of walking here on the farm, and your feet will thank you for keeping them comfortable! Sneakers, hiking boots or other comfortable walking shoes are recommended. Throw on an extra pair of socks for insulation on cold days!

- **Dress for the Weather!**

- If it’s raining at your house, it’s probably raining here, too! The Farm is open rain or shine, so be prepared to get wet ... we recommend a raincoat or poncho instead of an umbrella – you can’t pet the animals with an umbrella in your hand!
- Remember a jacket, hat and gloves on cold days. It may seem balmy walking from your house to your car, but the cold really sets in when you’ve been outside for a couple of hours!

- **Your choice: Prevention or Cure?**

- Sunshine is a farmer’s best friend, but it can be your worst enemy! Remember a hat and sunscreen on sunny days. A bottle of water can prevent dehydration on those hot summer days.
- Bugs can bite! Remember your insect repellent, especially if you are here late in the day when the mosquitoes come out.

- **Parents: THIS MEANS YOU, TOO!**

- If we had a nickel for every time we see a family come in with kids all bundled up and parents wet and cold, we’d buy a new tractor! So, when you’re dressing your kids up to come to the Farm, think about yourselves as well. We want everyone to have a good time at Gorman Heritage Farm!
